PROFILE

Data Science student with experience in SQL, data validation, and data quality improvement. Skilled in analyzing datasets, implementing validation checks, and ensuring data accuracy, integrity, and consistency. Experience supporting testing workflows, troubleshooting systems, and collaborating with cross-functional teams to deliver reliable, data-driven solutions.

EDUCATION

Georgia State University, College of Arts and Sciences
Bachelors Degree, Data Science

Atlanta, GA
Fall 2026

- GPA : 3.7 / 4.0

Edmonds College
Associated Degree , Computer Sciences

Lynnwood, WA
Spring 2024

- GPA: 3.7/4.0

CERTIFICATIONS/ EXAMS AND PROGRAM SKILLS

- Languages: SQL, Python, R, Java
- Data & Analytics: Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis, Hypothesis Testing
- Databases: MySQL, Snowflake (Foundational), Data Modeling (3NF), SQL Optimization
- Machine Learning & AI: Predictive Analytics, Feature Engineering, Model Evaluation, AI Ethics & Fairness
- Data Engineering: ETL Basics, Data Pipelines, Data Validation, Data Quality Management
- Visualization & Reporting: Excel, Dashboards, Data Storytelling, Business Reporting
- Cloud & APIs: REST APIs, API Integration, Azure Fundamentals
- Testing & Professional: Debugging, UAT, Root Cause Analysis, Cross-Functional Collaboration

ACADEMIC PROJECTS

Type 2 Diabetes Polygenic Risk Score (PRS) Analysis

Summer 2026

- Analyzed Type 2 Diabetes Polygenic Risk Scores (PRS) across Latino and European populations using population-scale genetic datasets.
- Applied Python, data preprocessing, and exploratory data analysis (EDA) to prepare and validate research data.
- Evaluated predictive model performance, fairness, and bias across demographic groups using statistical analysis and model assessment techniques.
- Developed visualizations and reports to communicate findings on AI-driven healthcare prediction systems and health equity.

Grocery Planning System

Spring 2026

- Designed and implemented a relational database with normalized schemas (3NF) to ensure data integrity and consistency.
- Developed SQL queries (JOIN, LEFT JOIN, GROUP BY, HAVING) to support data validation, filtering, and business logic.
- Built logic to identify missing data (e.g., unavailable ingredients) and calculate required costs, simulating data completeness checks.
- Integrated frontend and backend using REST APIs, enabling real-time data validation and updates.
- Led frontend wireframe design and UI implementation, ensuring accurate data representation and usability.
- Performed systematic debugging and testing by validating data flow across frontend, backend, and database layers.

Data Quality & Validation Project

Spring 2026

- Cleaned and preprocessed dataset by handling missing values, duplicates, and inconsistencies.
- Implemented validation checks to ensure data accuracy, completeness, and consistency.
- Applied data transformation and filtering using Pandas and SQL-based logic.
- Identified and corrected anomalies, improving overall dataset quality and reliability.
- Designed rule-based validation steps to simulate real-world data quality workflows.
- Generated insights using validated data to ensure accurate and trustworthy results.

WORK EXPERIENCE

Georgia State University

Atlanta, GA

Student Technical Support

March 2026 - Present

- Provided Tier 1 technical support by troubleshooting hardware, software, and network issues for faculty, staff, and students.
- Set up and maintained classroom technology and recording systems for academic and professional events.
- Handled equipment checkout and returns while tracking inventory and ensuring device readiness.
- Delivered efficient, customer-focused support while managing multiple requests in a fast-paced environment.

Student Assistant

September 2025 - March 2026

- Entered and maintained project data in renovation management systems and Excel, ensuring accuracy across 100+ client records and deliverables.
- Streamlined digital and physical file organization, improving record retrieval speed for staff and reducing clerical errors by 15%.
- Monitored with project activity tracking and reporting, contributing to completion of 10+ departmental projects per semester on schedule.

Edmonds College

Lynnwood WA

IT Service Desk Agent - Information Technology

August 2023 - June 2024

- Offered students and staff via Zoom, Google Meet, and email, providing troubleshooting guidance.
- Managed Google Apps, Canvas, and campus technology support, enhancing student access to digital resources.
- Explained and work with EdPass Office operations, processing student and employee ID cards and transit passes.
- Organized and maintained computer labs, ensuring accessibility and efficiency for users.

LEADERSHIP AND INVOLVEMENT

Georgia Aquarium

Atlanta, GA

Volunteer

November 2025 - Present

- Welcomed 1,000+ guests by providing directions, answering questions, and facilitating presentations to ensure a positive and organized visitor experience.
- Offered educational programs by greeting school groups, assisting educators with activities, and preparing materials for classes and camps.

Georgia State University

Atlanta, GA

Orientation Leader

January 2025 - August 2025

- Facilitated onboarding of 200+ incoming students and family members during orientation events by leading tours, Q&A sessions, and themed programming.
- Led group sessions for 30+ new students, organizing icebreakers, panels, and tours to build peer connection and increase first-week engagement.
